
ATTENTION! POWER OUTAGE!

Dear Students! Dear Guests!

The developments of the University of Miskolc allow the construction of several solar systems, and in the case of two dormitories, the solar panels have already been installed.

Due to service provider regulations, maintenance is required at the point of delivery of the university's electricity network. As there is only one suitable connection point, this will require **the entire Campus to be de-energised**.

According to the information provided by the contractor, the installation of the equipment and the mandatory maintenance of the existing switchgear will take a full day, which will be on **Sunday 5 May 2024**.

The **power outage** at the Uni-Hostel Student Residence building is expected to be in effect **from 8:00 a.m. on Sunday, May 5, 2024, until 1:00 p.m. on Sunday, May 5, 2024**.

Internet service will be disrupted until 20:00.

Internet service (*neither wired nor Wi-Fi will be available*), hot water service and heating service will also be interrupted during the blackout.

Thank you for your understanding!

Bolyai Student Hostel
